

This may seem complicated but it's quite simple and takes just 5 mins!

Here's the video instructions:

<https://www.loom.com/share/d26e707dffc248318cf61e628c7ba9f0>

Important: not mentioned in the video is choosing Property Type, if your GSC property is a 'web property' it will say under the domain name in GSC. If you're unsure and getting a 403/permissions error, toggle between the 2, and see which one works.

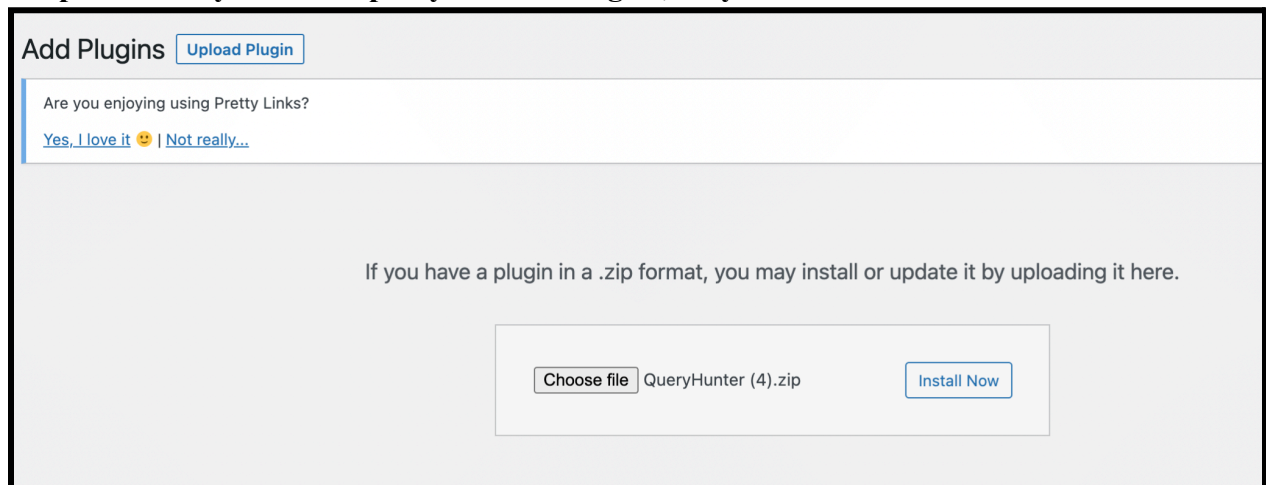

A screenshot of a form with a light gray background. On the left, the text "Property Type" is displayed in a bold, dark font. To the right of this text is a white rectangular box with a thin gray border, containing the word "Prefix" and a downward-pointing chevron icon, indicating a dropdown menu.

Also not mentioned in OpenAI AI key, you'll need one to access Pro AI features

Steps to install Query Hunter if you prefer to read:

1. Upload Query Hunter zip to your WP Plugins, may take 1-2 mins.

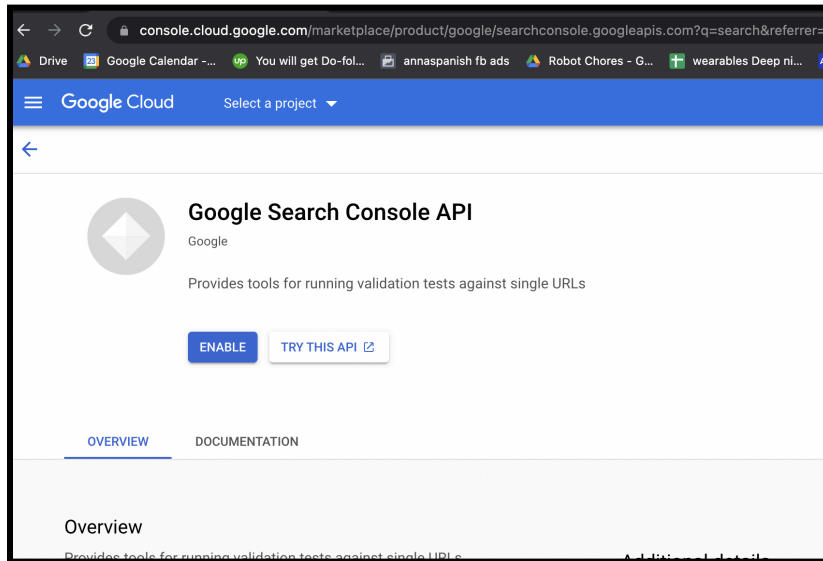

A screenshot of the WordPress "Add Plugins" interface. At the top left, it says "Add Plugins" with a blue "Upload Plugin" button next to it. Below this is a section titled "Are you enjoying using Pretty Links?" with two links: "Yes, I love it 😊" and "Not really...". The main area contains the text: "If you have a plugin in a .zip format, you may install or update it by uploading it here." Below this text is a white box with a thin gray border. Inside this box, on the left, is a "Choose file" button followed by the text "QueryHunter (4).zip". On the right side of this box is a blue "Install Now" button.

2. Create Google API

Go to:

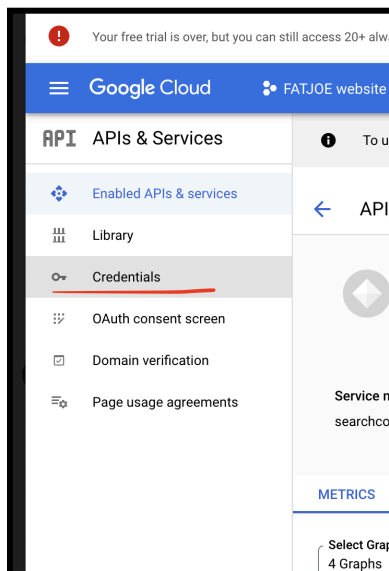

<https://console.cloud.google.com/marketplace/product/google/searchconsole.googleapis.com?q=search&referrer=search&project=red-height-353919>

3. And click ENABLE

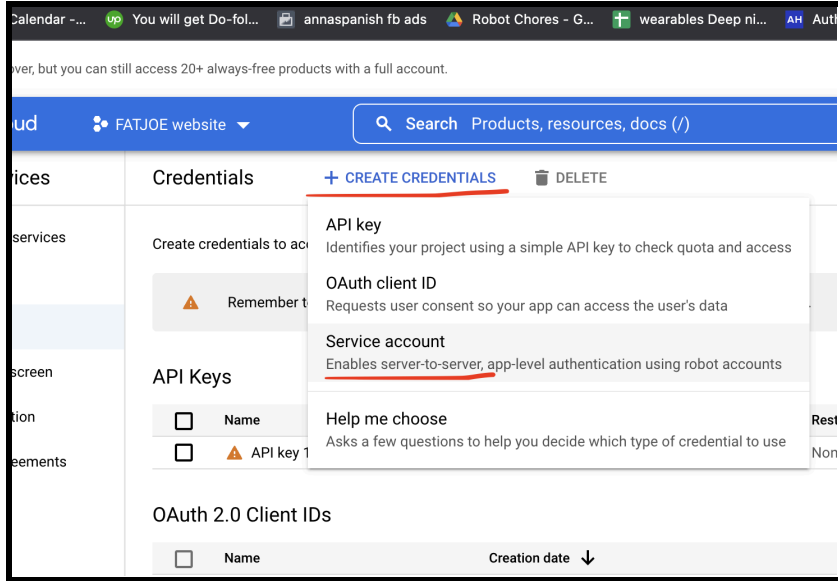

If prompted click the project/website you'll be working with.

4. Click CREDENTIALS

5. CLICK CREATE CREDENTIALS > SERVICE ACCOUNT

6. GIVE THE PROJECT A NAME

Create service account

1 Service account details

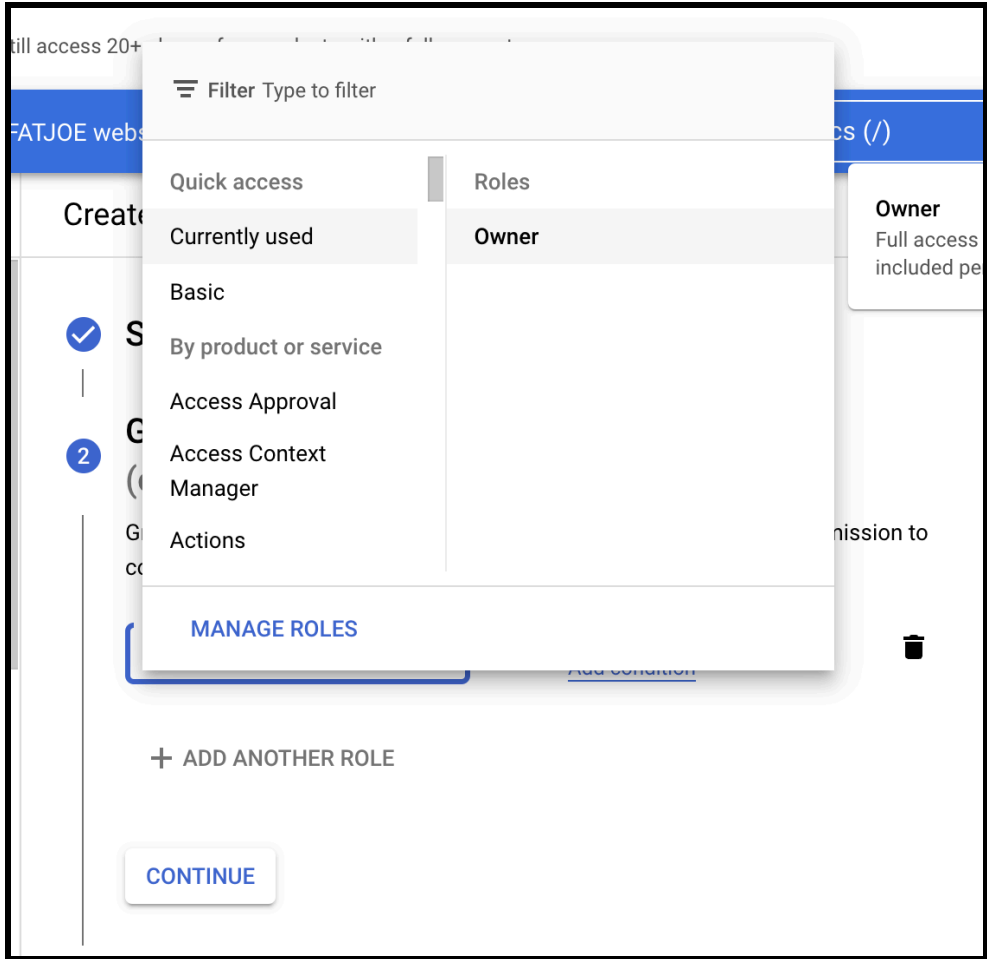

Service account name
Display name for this service account

Service account ID * ✕ ↻
Email address: mynichewebsite@fatjoe-website.iam.gserviceaccount.com 📄

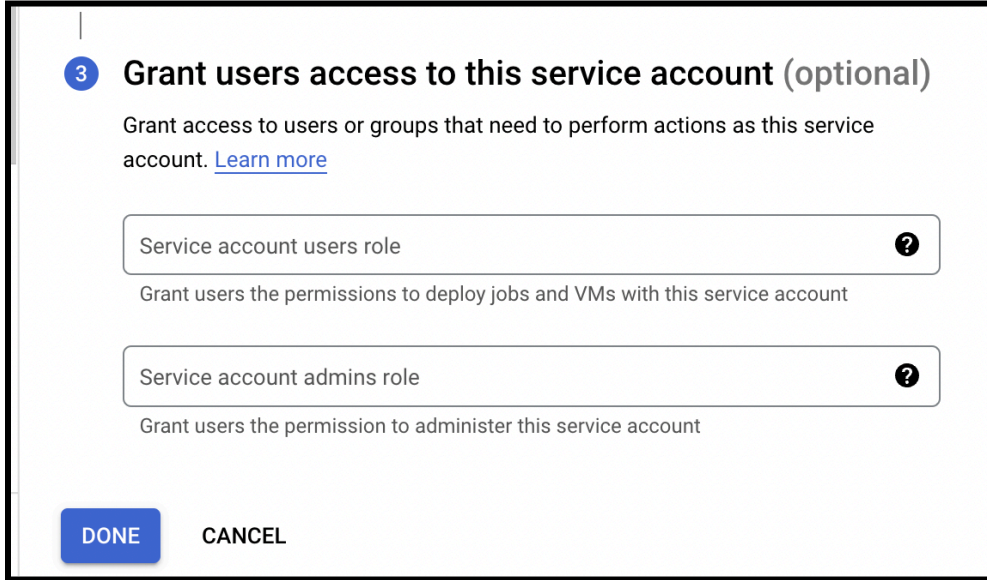

Service account description
Describe what this service account will do

[CREATE AND CONTINUE](#)

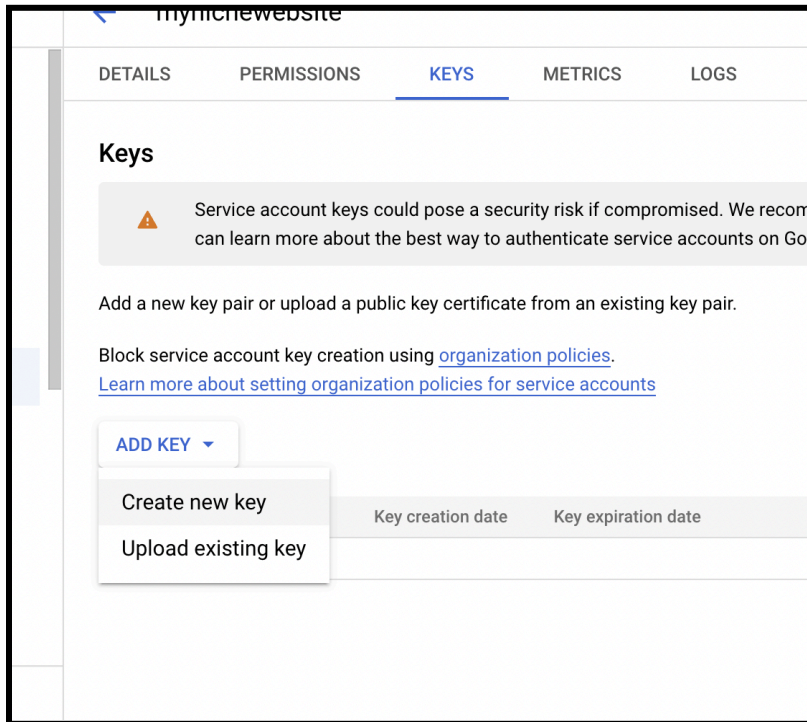

7. ADD ROLE OWNER

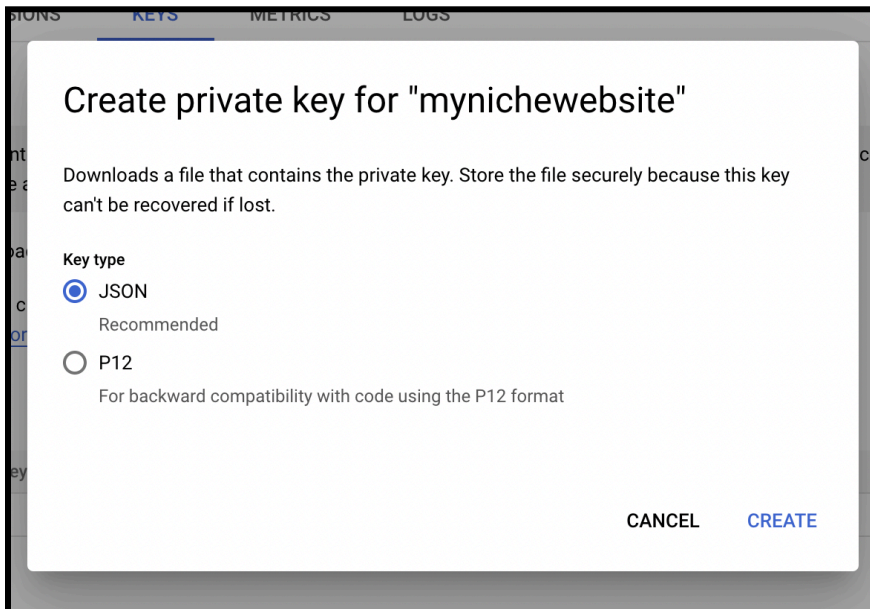

8. LEAVE NEXT FIELDS BLANK

9. CLICK ON THE SERVICE ACCOUNT ADDRESS then CREATE NEW KEY

10. CLICK JSON

11. OPEN JSON FILE AND COPY IT TO QUERY HUNTER SETTINGS

Settings

API Keys (JSON string)

```
{  
  "type": "service_account",  
  "project_id": "red-height-353919",  
  "private_key_id": "c8c0c2edb934e44538e97164cd091c4eeb9c19f8",  
  "private_key": "-----BEGIN PRIVATE KEY-----"
```

Save Changes

12. COPY API ACCOUNT EMAIL should look something like the below:

Description SAVE

Email
makebeatsqh@red-height-353919.iam.gserviceaccount.com

Unique ID
108179831127193863079

Service account status

Disabling your account allows you to preserve your policies without having to delete it.

13. OPEN SEARCH CONSOLE AND GO TO WEBSITE YOU WANT TO ADD QUERY HUNTER TO

SETTINGS > USERS AND PERMISSIONS > ADD API EMAIL AS FULL OWNER

Users		
Name ↑	Email	Permission
Joe Davies (you)	joedavies1987@gmail.com	Owner
makebeatsqh	makebeatsqh@red-height-353919.iam.gserviceaccount.com	Full ▼

Rows per page: 10 ▼ 1-2 of 2

14: PRO Users - Get OpenAi API

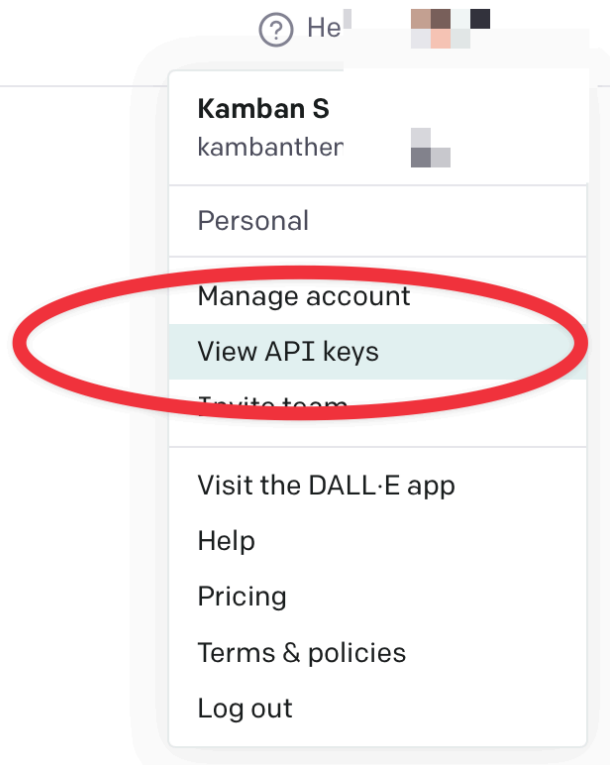

Here's a detailed guide, but its really simple:

<https://elephas.app/blog/how-to-create-openai-api-keys-cl5c4f21d281431po7k8fgyo10>

Go here - <https://openai.com/blog/openai-api>

Click sign up

15: Create API Key

16: Create and copy Key String

API keys

Your secret API keys are shown below. Do not share your API key with others, or expose it in the browser or other client-side code. In order to protect the security of your account, OpenAI may also automatically rotate any API key that we've found has leaked publicly.

SECRET KEY		CREATED	LAST USED	
sk-...QV4P	Reveal Copy	20 Jul 2021	14 Jun 2022	
sk-...5IJy	Reveal Copy	19 Dec 2021	22 Jan 2022	
sk-...a7qM	Reveal Copy	27 Jan 2022	15 Jun 2022	
sk-...7HnF	Reveal Copy	2 Jun 2022	14 Jun 2022	

[+ Create new secret key](#)

Default organization

If you belong to multiple organizations, this setting controls which organization is used by default when making requests with the API keys above.

17: Enter into Query Hunter Settings

Open AI License Key

[Save Changes](#)

18. Choose Property Type

Choose between Prefix and Web Property in query Hunter Settings, one will work, one wont try both.

Now go to your website on a high traffic post and start content refining!

See, weren't so bad was it!
